ALL NATURAL

DISINFECTION

AMAZING RESULTS
CLEAN WATER

THE MOST ADVANCED SYSTEM TECHNOLOGY

Producing Ultra-Pure Hypochlorous Acid
✓ Lowest Power Consumption
✓ Lowest Salt Consumption 1.6 ~ 2.5 g/l
✓ Stabilized pH
✓ Stabilized ppm

Remote monitoring from anywhere in the world!

Environmentally friendly and cost-effective solution for disinfection.
REACTRINA® TECHNOLOGY

Our patent-pending REACTRINA® technology is the only DOUBLE COOLED cell in the world!

We have taken the coaxial electrochemical cell concept to the most advanced state-of-the-art cell, providing:

- High Efficiency
- Low Voltage
- Low Salt Consumption (1.6~2.5 g/l)
- Double Cooling (Anode | Cathode)
- Lowest Chloride Residual

Producing ultra-pure Hypochlorous acid, ensuring the lowest Chlorides residual, 192 mg/l at 200ppm FAC (pH 7.1)

OUTER CELL

INNER CELL

- Best Industry Cell Warranty
- Easy cell membrane access - no tools required!
- No CRACKED end caps caused by cell expansion from overheating
- Patented Cell Technology eliminates cell overheating
- Cooling of the Anode
- Top grade plexiglass end caps provide multi-direction positional flow and ease of system access
- Cooling of the Cathode
SO MANY REASONS WHY OUR CELL IS THE BEST!

- NO CRACKED END CAPS
- NO OVERHEATING OF THE CELL
**NO ONE BEATS OUR WARRANTY - IT’S THE INDUSTRY’S BEST!**

- **1 YEAR WARRANTY**
  - All Component Parts
- **2 YEAR WARRANTY**
  - or 10,000 hours of operational use
  - Single Coated Cell
- **3 YEAR WARRANTY**
  - or 15,000 hours of operational use
  - Double Coated Cell

**CELL REPAIR NOT REPLACE**

**CARE&REPAIR**

Big Savings over cell replacements!
All Kirkmayer System Generators are designed with simplicity in mind. Cells can quickly and easily be repaired by changing out the cell membrane for just a fraction of the cost of a new cell.

**THE MOST RELIABLE ENVIROLYTE REPLACEMENT CELL**

- Lower Salt Consumption
- Eliminates Cracked End Caps from Cell Heat Expansion
- Repair Cells with Cell Repair Kits - NOT NEW CELLS
